

Rob Stone

PRODUCT DESIGN LEAD

Seattle, WA

I'm a full stack designer and leader with experience building innovative digital products. My core UX expertise along with research, strategy, and product management skills help me solve complex design and business challenges.

WORK EXPERIENCE

Senior UX Product Designer @ProbablyMonsters

Sept 2022 - Oct 2023, Seattle

UX advocate across studios. Supported game UX for an unannounced project. Led design of an innovative project management tool with efficient team. Interviewed leaders across the company, helping launch improved studio process and development milestones.

Principal Designer @Slalom_Build

Aug 2017 - Sept 2022, Boston

Started as an architect and grew into a leadership role, helping grow the Boston design team by 250%. Launched four enterprise products, leading design from discovery through development and managing design teams. Succeeded consistently through data-informed design principles, scalable design systems, and cross-discipline collaboration.

Lead Designer & Founding Member @Solidified

July 2017 - Jan 2022, Boston (Remote)

Founding member of the blockchain security start-up with an international team. Designed an enduring brand still in use by the company. Led design of our core product, a bug bounty platform.

UX Designer @Jibo

Apr 2016 - Aug 2017, Boston

Leveraged conversational UI and computer vision to design Jibo's alarm and camera skills. Designed a native mobile app with over 50 five star Android reviews. Collaborated with developers and InfoSec to achieve COPPA compliance, so the whole family could play with Jibo.

UX Designer @DESIGNATION

Oct 2015 - Apr 2016, Chicago

Motion Designer @Lunchpail Productions

Nov 2011 - Oc 2015, Boston
